

Badges/Sublimation

Badges and Sublimation

Confident Care Products can sublimate your logo onto 100% polyester i.e. napkins, tablecloths, absorbent bed sheets/pads wings/tuckins.

Other information as required can also be added to further enhance your company's professional image and provide easy identification for clients and colleagues.

Sublimation is the latest technology. It successfully and inexpensively adheres an image to fabric and will last the life of the fabric.

Attach your corporate identity onto your employee's uniform. Have your name and/or company logo sublimated on any of our range of badges, available in various shapes and sizes.

These are available in your choice of colours and sizes.

Why not put your logo onto your napkins for a professional image?
